Innovative Electro Mechanical Contracting

We express our gratitude for the chance to introduce IEC (Innovative Electro Mechanical Contracting) and share our growth in the highly competitive contracting sector in the United Arab Emirates. With a foundation built on dedication, wisdom, and diligence, IEC has established itself as a reliable company, focusing on Electrical Services, HVAC, Plumbing, and Bulk AC Supply.

Setting ourselves apart through cutting-edge strategies, we prioritise market requirements, consistently placing customer needs and timely project completion at the forefront.

In our pursuit of excellence, we continually seek the latest technologies for electro-mechanical activities. Meticulously selecting materials and executing tasks efficiently, we meet customer demands at competitive costs.

IEC values an open exchange of ideas, respecting input from clients and fostering collaborative relationships. Our commitment extends to environmental protection and workplace safety, adhering to strict guidelines set by governmental organisations

For further clarifications or to explore our services, please do not hesitate to get in touch with us. We eagerly anticipate the opportunity to serve your needs effectively.

Electrical Services

Our Electrical Services cover the entire spectrum of supply, installation, and maintenance for industrial commercial and residential projects. With a commitment to precision and safety, we offer a comprehensive range of services tailored to meet your electrical needs.

Detailed Information

Design

Tender, Shop, Coordination, As-Built, and Construction Drawings.

Safety and Grounding

Robust Earthing, Bus Bar Trunking, and Switch Gear Systems.

Installation

Wiring Accessories, Disconnecting Switches, and Light Fitting

Documentation

Operation and Maintenance Manuals, ongoing support.

Cabling

Management System, Wiring, and Cabling to industry standards.

Instrumentation

Metering, Emergency Power Supply for uninterrupted

Quality Assurance

Rigorous Testing, Commissioning, and Approval Processes.

Plumbing Services

Our Plumbing Services encompass a comprehensive range of supply, installation, and maintenance. We take pride in delivering efficient and reliable solutions tailored to your plumbing needs. We prioritize precision, efficiency, and reliability in our Plumbing Services. Contact us for tailored solutions that meet the highest industry standards.

Detailed Information

Design Expertise

Tender, Shop, Coordination, and Construction Drawings. Installation of high-low level network.

Pumping Solutions

Installation of various Water Pumps for optimal performance.

Water Filtration

Installation of Water Filtration System for clean and safe water.

Fixture Installation

WC and Flush tank installation.
Installation of traps, manholes, and sanitary wares.

Documentation and Compliance

Labelling and identification for clarity. Sketches & Checklists for organized processes. Approval Processes from Authorities for regulatory compliance.

Piping Systems

Expert installation of PEX System, PPR network, and more.

Cooling and Heating Systems

Water Chiller System Installation.
Water Heating and Cooling Systems expertise.

Acoustic Solutions

Acoustic Pipes, Fittings & Acoustic Lagging for noise control.

Testing and Commissioning

Pressure testing of water supply pipes.
Gravity testing of drainage pipes.

Project Completion

As-built drawings for accurate post-construction documentation. Operation and Maintenance Manuals for client guidance.

HVAC Service

At IEC our HVAC Services are designed to ensure optimal climate control and efficiency. We specialize in the supply and installation of a wide range of HVAC systems, providing tailored solutions for your specific needs. IEC ensures cutting-edge HVAC solutions with a commitment to efficiency and reliability. Contact us for customized services that meet the highest industry

Detailed Information

Design and Coordination

Preparation of Tender, Shop, Coordination, and Construction Drawings.

Cooling Systems

Chiller Water Pipe Installation for effective cooling. Installation of Exhaust Fans to enhance ventilation. Installation of Package Units for versatile cooling solutions.

Quality Assurance

Chiller water pump pressure test to ensure reliability. Refrigerant Piping works for efficient heat exchange. Installation of Thermostats and Controllers for temperature regulation.

Quality Assurance

Implementation of a Building Management System for centralized control. Installation of VCD/FD/NRD/Split Dampers for precise airflow control. Aluminum Cladding works for both Pipe and Duct.

Ducting and Sound Control

Expert HVAC Ducting works with a focus on efficiency. Implementation of Sound Attenuation solutions for noise control.

Air Conditioning Units

Installation of Ducting Split Units for precise temperature control. Expertise in VRF System installation.

System Installations

Installation of Chillers, AHU's, FCU's, and FAHU's for comprehensive climate control. Valve Package installation for AHUs, Chillers, FCU's & Pumps.

System Installations

Testing and Commissioning for system validation. Approval Process from Authorities for regulatory compliance. As-Built Drawings for accurate post-construction documentation. Operation and Maintenance Manuals for ongoing support.

Bulk AC Supply

IEC (Innovative Electro-Mechanical Contracting) is your trusted partner for Bulk AC Supply, catering to industrial, commercial, and residential sectors. Our services are tailored to meet the diverse cooling needs of different environments, ensuring optimal comfort and efficiency. Whether it's industrial complexes, commercial spaces, or residential buildings, IEC provides Bulk AC Supply services that prioritize efficiency, reliability, and client satisfaction. Contact us for personalized cooling solutions that exceed expectations.

Client Overview

Trust is at the core of our client relationships. Renowned for delivering excellence in electro-mechanical contracting, we've earned the confidence of clients across diverse sectors. Our commitment to precision, reliability, and client satisfaction sets us apart. Choose IEC as your trusted partner for a relationship built on integrity and exceptional service.

Our Clients

Our Projects

Our portfolio boasts successful ventures in Electrical Services, HVAC, Plumbing, and Bulk AC Supply, demonstrating our prowess in delivering high-quality solutions. From conceptualization to timely execution, IEC ensures excellence, meeting your project requirements with precision and expertise
